Art Unit: 1614

Claims 1 and 5-40 are presented for examination.

Applicants' amendment and response filed November 19, 2007 have been received and entered.

Accordingly, the rejection made under 35 USC 112, first paragraph (written description) as set forth in the previous Office action dated April 10, 2007 at pages 3-7 is hereby withdrawn because the applicants cancelled claims 2-4 and amended claim 1 to recite the said anti-estrogen is Toremifene.

Accordingly, the rejection made under 35 USC 102 (a) as being anticipated by WO 01/49673 A2 as set forth in the previous Office action dated April 10, 2007 at pages 7-8 is hereby withdrawn because the reference does not teach the applicants' preferred anti-estrogen agent, Toremifene, is used to treat a subject with hot flashes.

Accordingly, the rejection made under 35 USC 102(b) as being anticipated by Merckenthaler et al., Maturitas, Vol. 30, No. 3, pp. 307-316 (1998) as set forth in the previous Office action dated April 10, 2007 at pages 8-9 is hereby withdrawn because the reference does not teach the applicants' preferred anti-estrogen agent, Toremifene, is used to treat a subject with hot flashes.

Claims 11-40 are withdrawn from consideration as being drawn to the non-elected invention (37 CFR1.142(b)).

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably

Art Unit: 1614

distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1 and 5-10 are again provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-8 of copending Application No. 10/778,333. Although the conflicting claims are not identical, they are not patentably distinct from each other because of reason set forth in the previous Office action dated April 10, 2007 at pages 2-3 is **MAINTAINED**.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claims 1 and 5-10 are not allowed.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 1614

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
